WORK EXPERIENCE AND ACHIEVEMENTS

10/2007 – current moment

FREELANCE

For 15 years in the field of web development:

- On average, about **7** successfully completed **projects per year** (using the technologies listed above).
- During all this time, I have developed about **900** web pages PSD to HTML.
- I **have not** received a **single** complaint related to the failure of the project implementation deadlines or unfair behavior during it.
- **Not a single project** made by me remained without my support after the end of the work.
- **7 years** of cooperation with a **large franchise** of the pharmacy chain "Sovetskaya Apteka", website development, support for the smooth and accurate operation of an ever-growing resource that currently serves **640 pharmacies** located in **158** regions of the country.
- Over the previous **5 years**, I have individually studied Laravel 8 and Yii2, improving my level in this technologies to **professional**.
- **3** different development **teams**, in which I managed to work for the previous 2 years. Each time, a common language was easily found with colleagues when solving work issues.
